

# SECOND MASTER OF SCIENCE IN NURSING (MSN) DEGREE IN NURSING LEADERSHIP IN HEALTHCARE

This track prepares Registered Nurses to assume leadership and administrative positions in inpatient, outpatient, and community-based settings. Students gain knowledge and competency in financial and human capital management, as well as strategies for responding to the ethical and legal issues encountered in administrative roles. The NLH core courses are offered online. Practicum experiences are arranged by the student to meet identified learning needs. There is a required two-day, on-campus immersion during the last practicum course.
